RACI Matrix Template · Expert version

A RACI matrix template maps tasks against roles and shows who is Responsible, Accountable, Consulted and Informed for each one, removing confusion about ownership and decisions.

How to use this template

1. List tasks or deliverables down the left side.
2. Rename the column headers to your roles (roles, not names, where possible).
3. Pick one Accountable person per task, then mark who is Responsible, Consulted and Informed.
4. Check each row has exactly one A and at least one R.
5. Review the matrix with the team and share it with the communication plan.

Tips

- Too many C's slow decisions down.
- A column with no R's may mean a role is not needed.
- Revisit the matrix when the team changes.
- Use it to settle ownership disputes early.
