Priority List Template · Expert version

A priority list template helps you decide what to do first by scoring each task's importance and urgency and placing it in an Eisenhower quadrant: do, schedule, delegate or drop.

How to use this template

1. List everything competing for your time.
2. Score importance (impact on goals) and urgency (time pressure) from 1 to 5.
3. Read the quadrant: Do now, Schedule, Delegate or Drop.
4. Assign owners for delegated items and dates for scheduled ones.
5. Re-score weekly as priorities change.

Tips

- Protect time for important, non-urgent work.
- Be honest about what can be dropped.
- Sort by score to see your top priorities.
- Copy top items into your to-do list.

Dashboard (sample data)
