Product Backlog Template · Beginner version

A product backlog template gives your Scrum Team a single ordered list of everything needed to improve the product, with descriptions, value, estimates and status, ready for refinement and Sprint Planning.

Product Backlog · Ordered by the Product Owner: top items are refined and ready

Order	ID	Item / user story	Estimate (points)	Status
1	PB-101	As a customer, I can reset my password by email	5	In progress
2	PB-102	As a customer, I can download invoices as PDF	3	Not started
3	PB-110	Fix timeout on invoice search	2	Not started
4	PB-115	Spike: evaluate search library	3	Not started
5	PB-120	As an admin, I can export user lists	8	Not started
6	PB-130	Upgrade logging framework	5	Not started
