To-Do List Template · Expert version

A to-do list template keeps your tasks in one place with priorities, due dates and status, so you always know what to do next. It includes a running task list and a weekly to-do planner you can print.

How to use this template

1. Write every task down, starting each with a verb.
2. Set a priority and due date; add a time estimate for bigger tasks.
3. Each morning, pick your top three from the list (or use the Weekly planner).
4. Tick tasks off as you finish them.
5. Review the list weekly: delete, delegate or reschedule old items.

Tips

- Break big tasks into steps you can finish in under an hour.
- Do the hardest high-priority task first.
- Keep one list, not several.
- For shared work, use a project tracker.
