Budget Template · Beginner version

A budget template lets you plan spending by category and month, record actuals and see variances immediately, whether you are budgeting for a project, a team or your household.

Monthly budget · Positive variance = under budget for costs, above plan for income

Category	Planned ($)	Actual ($)	Variance ($)
Income	6,000	6,200	200
Salaries / labour	3,000	3,100	-100
Software and tools	400	380	20
Marketing	600	720	-120
Travel	300	150	150
Other	200	210	-10
Total costs	4,500	4,560	-60
Net (income − costs)	1,500	1,640	140
