# Work Package Template · Beginner version

A work package template describes the lowest level of the work breakdown structure in enough detail to assign, estimate, schedule and accept it.

## Work package · One sheet per work package

| Field | Details |
|---|---|
| WBS code | 1.4.2 |
| Work package name | Customer login and password reset |
| Owner | Tech lead |
| Description / scope | Build login, logout and password reset using single sign-on. |
| Deliverables | Working feature in test environment; unit tests; release notes. |
| Tasks | Design screens; build API; integrate SSO; write tests. |
| Effort estimate (days) | 12 |
| Cost estimate ($) | 9,600 |
| Start / finish | 2 Mar 2026 / 17 Mar 2026 |
| Dependencies | SSO service (IT security project) |
| Acceptance criteria | All login test cases pass; security review approved. |
| Risks | SSO delay |
| Approved by / date | |
