Project Proposal Template · Beginner version

A project proposal template helps you win approval for a project by setting out the problem, your proposed solution, the objectives, scope, timeline, budget and risks in a clear, persuasive structure.

Proposal · Write the summary last

Section	What to write	Your content
Title and summary	One paragraph: the problem, your solution and the ask.	
Background / problem	What is wrong today and the evidence.	
Proposed solution	What you will do and why this approach.	
Objectives	Measurable outcomes (SMART).	
Scope	In scope and out of scope.	
Deliverables	What will be produced.	
Approach and timeline	Phases and key milestones (see Budget & timeline tab).	
Budget	Total cost and main cost lines.	
Benefits	Financial and non-financial benefits; ROI if known.	
Risks	Top risks and how you will manage them.	
Team	Who will deliver and their roles.	
Next steps / approval	Decision needed, by whom and by when.
