# RAID Log Template · Beginner version

A RAID log template keeps a project's Risks, Assumptions, Issues and Dependencies in one place with owners, ratings, actions and due dates, ready to review in every status meeting.

## RAID log · Risks, Assumptions, Issues and Dependencies in one log

| ID | Type | Description | Owner | Due | Status |
|---|---|---|---|---|---|
| R1 | Risk | Billing API may not be ready by 1 Feb | Tech lead | 30 Jan 2026 | In progress |
| A1 | Assumption | Support team available for UAT in March | PM | 5 Feb 2026 | Not started |
| I1 | Issue | Test environment unstable | Ops lead | 20 Jan 2026 | In progress |
| D1 | Dependency | Single sign-on from IT security project | PM | 27 Feb 2026 | Not started |
