5-Year Plan Template · Expert version

A 5-year plan template turns a long-term vision into goals, initiatives and measurable targets for each year, so the business or team knows where it is heading and how progress will be judged.

How to use this template

1. Write a clear five-year vision.
2. Set two to four strategic goals and how they evolve each year.
3. Plan the key initiatives, products and markets by year.
4. Enter revenue targets; growth calculates automatically.
5. Turn year 1 into an annual plan with OKRs and review the plan every year.

Tips

- Make year 1 detailed and later years directional.
- Base targets on realistic assumptions.
- Link the plan to budgets and hiring.
- Revisit after major market changes.

5-year plan · Long-term direction; review annually

Area	Year 1	Year 2	Year 3	Year 4	Year 5
Vision (where we will be)					
Strategic goals					
Key initiatives					
Products / services					
Markets / customers					
People and capabilities					
Revenue target ($)	500,000	750,000	1,100,000	1,500,000	2,000,000
Growth vs prior year		50%	47%	36%	33%
Key metrics					
Major risks
