# Sprint Planning Template · Advanced version

A sprint planning template helps a Scrum Team agree a Sprint Goal, check capacity, select Product Backlog items and plan the first tasks, all in one view the team can use throughout the Sprint.

## Sprint plan · Sprint Goal: customers can manage their account without calling support

| Backlog item | User story / description | Story points | Owner | Tasks | Acceptance criteria | Status |
|---|---|---|---|---|---|---|
| PB-101 | As a customer, I can reset my password by email | 5 | Ana | API endpoint; email template; tests | Reset link expires after 1 hour | Not started |
| PB-102 | As a customer, I can download invoices as PDF | 3 | Ben | PDF service; download button | PDF matches invoice data | Not started |
| PB-103 | As support, I can see a customer's last login | 2 | Chen | Admin view field; audit log | Shows date and time in local zone | Not started |
| PB-104 | Spike: evaluate search library | 3 | Dana | Prototype two libraries | Recommendation documented | Not started |
| Total | | 13 | | | | |

## Capacity · Check capacity before committing to the Sprint Backlog

| Team member | Available days | Focus factor | Capacity (days) | Notes |
|---|---|---|---|---|
| Ana | 9 | 0.80 | 7.20 | 1 day leave |
| Ben | 10 | 0.80 | 8 | |
| Chen | 8 | 0.70 | 5.60 | Support rota |
| Dana | 10 | 0.80 | 8 | |
| Team total | 37 | | 28.80 | |
