User Story Template · Advanced version

A user story template helps you write requirements from the user's point of view, 'As a… I want… so that…', with clear acceptance criteria, so teams build what users actually need.

User stories · Write stories that are Independent, Negotiable, Valuable, Estimable, Small and Testable (INVEST)

ID	Epic	As a…	I want…	So that…	Acceptance criteria (Given / When / Then)	Story points	Priority	Status
US-01	Account self-service	customer	to reset my password by email	I can log in without calling support	Given I request a reset, when I open the link within 1 hour, then I can set a new password	5	High	Not started
US-02	Account self-service	customer	to download my invoices	I can send them to my accountant	Given I am logged in, when I click Download, then a PDF of the invoice is saved	3	Medium	Not started
US-03	Support tools	support agent	to see a customer's last login	I can troubleshoot faster	Given I open a customer record, then the last login time is shown	2	Low	Not started

Epics · Group related stories into epics

Epic	Description	Goal	Stories	Owner	Status
Account self-service	Let customers manage their accounts online	Cut support calls 30%	US-01, US-02	Product Owner	In progress
Support tools	Give agents better customer context	Reduce handling time	US-03	Product Owner	Not started
