Work Request Form Template · Expert version

A work request template standardises how people ask your team for work: one intake form with the details you need, and a log to prioritise, assign and track every request.

How to use this template

1. Share the Request form tab (or a Google Form based on it) with requesters.
2. Log each request with a number and date.
3. Triage weekly: set priority and assign an owner.
4. Agree due dates with requesters.
5. Track status and close requests when delivered.

Tips

- Make 'why' a required field.
- Publish your turnaround times.
- Reject or defer requests openly.
- Automate intake with a form in your work management tool.

Dashboard (sample data)

Field	Value	Count
Priority	High	2
Priority	Medium	1
Priority	Low	0
Status	Not started	2
Status	In progress	1
Status	On hold	0
Status	Blocked	0
Status	Done	0

Request log · Log every request from the intake form

Request #	Date	Requester	Team	Request type	Description	Due date	Priority	Assigned to	Status
WR-001	2 Mar 2026	Sales	Creative	Design	One-page product sheet	13 Mar 2026	High	Ana	In progress
WR-002	3 Mar 2026	HR	IT	Access	Laptop and accounts for new starter	9 Mar 2026	High	Ben	Not started
WR-003	4 Mar 2026	Support	Creative	Video	Short how-to video for portal	27 Mar 2026	Medium		Not started
