Go-to-Market Plan Template · Expert version

A go-to-market plan template helps you launch a product or enter a market with a clear strategy: who you sell to, how you position and price it, which channels you use, and the launch tasks and metrics.

How to use this template

1. Define the target market, ideal customer and value proposition.
2. Agree positioning, messaging and pricing.
3. Choose channels and the sales motion.
4. Build the launch checklist across product, marketing, sales and support.
5. Set launch metrics and review them 30 days after launch.

Tips

- Interview target customers before launch.
- Launch to a focused segment first.
- Enable sales and support before marketing goes live.
- Plan the post-launch review up front.

Dashboard (sample data)

Field	Value	Count
Owner	Launch lead	2
Owner	Marketing	1
Owner	Product	1
Owner	Sales enablement	1
Owner	Support	1
Status	Not started	6
Status	In progress	0
