Request for Quote (RFQ) Template · Expert version

An RFQ template helps you ask suppliers for prices on clearly defined goods or services and compare their quotes fairly, on price, delivery and terms.

How to use this template

1. Write a clear specification with quantities and delivery dates.
2. State commercial terms and how quotes will be evaluated.
3. Send the same RFQ to several suppliers with a deadline.
4. Enter prices in the Quote comparison tab; totals calculate automatically.
5. Evaluate against your criteria, not price alone, and award the order.

Tips

- Ask all suppliers the same questions.
- Share answers to questions with every bidder.
- Check delivery, warranty and support, not just price.
- See procurement management.

RFQ · Send the same RFQ to every supplier

Section	Details
RFQ number and date	RFQ-2026-014 · 2 March 2026
Issued by	Company, contact name, email
