# Sprint Planning Template · Beginner version

A sprint planning template helps a Scrum Team agree a Sprint Goal, check capacity, select Product Backlog items and plan the first tasks, all in one view the team can use throughout the Sprint.

## Sprint plan · Sprint Goal: customers can manage their account without calling support

| Backlog item | User story / description | Owner | Tasks | Status |
|---|---|---|---|---|
| PB-101 | As a customer, I can reset my password by email | Ana | API endpoint; email template; tests | Not started |
| PB-102 | As a customer, I can download invoices as PDF | Ben | PDF service; download button | Not started |
| PB-103 | As support, I can see a customer's last login | Chen | Admin view field; audit log | Not started |
| PB-104 | Spike: evaluate search library | Dana | Prototype two libraries | Not started |
