Meeting Agenda Template · Expert version

A meeting agenda template gives every meeting a clear objective, a timed list of topics with owners and the outcome needed from each, so meetings start on time, stay on track and end with decisions.

How to use this template

1. Write the meeting's objective in one sentence.
2. List topics in priority order with an owner and the outcome needed (decision, input or information).
3. Time-box each item so the total fits the meeting length.
4. Attach pre-reading and send the agenda at least 24 hours ahead.
5. Use the meeting notes template to record decisions and actions.

Tips

- Put decisions early, while energy is high.
- If an item has no outcome, it may not need a meeting.
- Keep 5 minutes to summarise actions.
- End on time.
