OKR Template · Expert version

An OKR template helps you set ambitious objectives, define measurable key results and track progress through the quarter, so teams focus on outcomes that matter.

How to use this template

1. Write two to five inspiring, qualitative objectives for the quarter.
2. Add two to four measurable key results per objective with a start value and target.
3. Assign an owner to each key result.
4. Update Current weekly; progress calculates automatically.
5. Score at the end of the quarter and set the next OKRs.

Tips

- Key results measure outcomes, not tasks.
- 70% achievement on stretch OKRs is a good result.
- Keep OKRs separate from performance reviews.
- Link projects to the OKRs they support.

Dashboard (sample data)

Field	Value	Count
Owner	CX lead	1
Owner	Growth	1
Owner	Marketing	1
Owner	Product	1
Status	Not started	0
Status	In progress	4
Status	On hold	0
Status	Blocked	0
Status	Done	0

OKRs · Q2 2026 · Progress = (current − start) ÷ (target − start)

Objective	Key result	Owner	Start value	Target	Current	Progress	Confidence	Status
Delight new customers	Raise onboarding CSAT	CX lead	7.10	8.50	7.80	50%	Medium	In progress
Delight new customers	Cut time to first value (days)	Product	14	5	9	56%	Medium	In progress
Grow efficiently	Increase trial-to-paid conversion (%)	Growth	12	18	14	33%	Low	In progress
Grow efficiently	Reduce CAC ($)	Marketing	420	350	400	29%	High	In progress
